

Below are the details of the changes made to our latest software release.

Enhancements

- PPP-8432 & PPP-8476 – Amendments have been made to mitigate the writing or uploading of Test, Demo or Dummy data for Employment Verification Services.
- PPP-8434 – When terminating an employee, the information will immediately be written for Employment Verification Services purposes.
- PPP-8470 – The operating system of the Online Tax Calculator mobile application for Android and iOS has successfully been migrated to MAUI.
- PPP-8474 – The encryption for Sage Self Service username and password has been updated.
- PPP-8478 – The .Net components have been updated for Sage Self Service.
- PPP-8479 – an updated iFrame has been implemented for the Netcash use in verifications of Id, Bank Account and Credit Checks.

Defects

- PPP-8463 – Users will now be able to send payslips using the new Outlook as well.
- PPP-8464 – Users will no longer experience Sage Pastel Payroll failing to open past 50% on the launch screen as a result of the new Outlook.
- PPP-8473 – The OID Report will now correctly utilise negative income values.

International

- PPP-8438 – Lesotho – New tax files are available.
- PPP-8467 & PPP-8469 – Zimbabwe – The new ZiG tax files are available.
- PPP-8475 – Zimbabwe – A new lookup table has been added for the Use of Motor Vehicle.
