History of Changes

2027 Update 1b

Councils

MIBFA Pension and Provident Fund Increase for 2026/2027 (PPP-8917)

MIBFA pension and provident fund contribution percentages have been updated from 8.3% to 8.5% for the 2026/2027 period. The associated formula effective date has also been updated to 01 July 2026.

International

Botswana ITW8 Improvements (PPP-8145)

The Botswana ITW8 certificate print options have been improved to align behaviour across final print, reprint, and test print scenarios. The filter button was also corrected.

Botswana Tax Table Updates (PPP-8922)

The Botswana resident and non-resident tax tables have been updated for the 2026/2027 tax year, effective 01 July 2026. This includes updated lookup tables for resident and non-resident calculations, as well as cumulative amount formula verification.

Botswana ITW8 Total Remuneration Calculation (PPP-8923)

The Botswana ITW8 report has been updated so that other payments are included correctly in the total remuneration and amount subject to PAYE calculations. The issue also references implementation of the newer Botswana ITW8 report template.

Mauritius NSF Contribution Limits Updated (PPP-8924)

Mauritius NSF contribution limits have been updated with an effective date of 01 July 2026. The relevant lookup tables have been updated with the revised contribution amounts.

Mauritius Tax Deduction for Dependants (PPP-8849)

The calculation for Mauritius tax deductions for dependants has been corrected for scenarios where an employee starts during the tax year. The updated logic supports full-year employees, mid-year starters, employees with previous employment, dependent changes during the year, and year-end scenarios.

General Improvements

Demo Company Updated (PPP-8821)

Demo company has been updated with the latest changes, ensuring demonstration and test environments remain aligned with the release content.
