1.0 Ghana: Tax Changes (Premier Only)

You received a **Patch File** on **29 September 2026** to update the Ghana Tax Tables.

The Income Tax (Amendment) Bill 2026 amended the Income Tax Act 2015 (Act 896), in the First Schedule, by updating the Rates of income tax for individuals. With effect from **1 September 2026**, the following tax tables apply:

Monthly Tax Table for the 2026/2027 Tax Year:

Annual Income		Rate %	Fixed Amount
From	To		
0.00	588.00	0%	0.00
588.01	668.00	5%	4.00
668.01	768.00	10%	14.00
768.01	3 668.00	17.50%	521.50
3 668.01	19 668.00	25%	4 521.50
19 668.01	50 000.00	30%	13 621.10
50 000.01	And above	35%	0.00

2.0 Other Tax Countries: Existing Report Changes

Country	Report	Detail
		Issues Resolved
Namibia	Form 10 (SSC Submit)	You received a **Patch File** on **29 September 2026** to amend the following: The Upper limit was incorrectly applied, with the result that all Gross Remuneration values subject to SSC reflected as N$12 500.

3.0 Issues Resolved

The following issues have been resolved:

Area	Issue	Detail
		Issues Resolved
All Users: Sage Network	Flow of data to the Sage Network	A **software update** was deployed on **27 October 2026** to enhance system functionality and ensure continued compatibility with the Sage Network. The update was deployed automatically in the background. Some customers may have received an update notification when accessing their Payroll. No manual installation was required. Should a notification still appear, please follow the on-screen instructions to proceed.
All Users: Separate Payslips	Tax sometimes displayed incorrectly across Separate Payslips. .	If the employee received Periodic Taxable Income in a previous Pay Period for this Tax Year and receives Income in the current Pay Period which is split across Separate Payslips, then the Tax amount sometimes displayed incorrectly across the various Separate Payslips. For example, Tax could be displayed on a Separate Payslip where no tax is expected, or a negative tax amount could be displayed. **Please Note:** The actual Tax calculated on the Payslip Screen was correct and the sum of the Tax displayed on the Separate Payslips added up correctly.
InfoSlip Users: Import Failed	InfoSlip and SMS import failed due to incorrect creation of Record 011 for employees not set up to receive InfoSlips.	**Main Menu > eSolutions > InfoSlips Export > InfoSlip and SMS** The “InfoSlip and SMS” file import failed if an employee was not set up to receive an InfoSlip, but they had input on their Hours Screen. This resulted in the creation of an unidentified Record 011. No records will be created for anyone that is not set up to receive an InfoSlip.
